

### Backfill Analysis

Checker instructions:

- Look at graphs for each of the metrics, and confirm that any differences between the lines are small, or well understood
- for each value in the "spot check value" columns, confirm that the value matches the same day's value on the state's page ([see note on column header](#))
- If all looks good, copy/paste each of the proposed columns into states daily.

Date	Total Tests (PCR)		Spot check value	Positive Tests (PCR)		Spot check value	Negative Tests (PCR)		Spot check value	Negative (People or Cases)		Spot check value
	Proposed			Proposed			Proposed			Proposed		
2020-03-03	5			2			5			3		
2020-03-02	4			2			2			2		
2020-03-01	0			0			0			0		
	0			0			0			0
