Backfill Analysis

Checker instructions:
- Look at graphs for each of the metrics, and confirm that any differences between the lines are small, or well-understood
- for each value in the "spot check value" columns, confirm that the value matches the same day's value on the state's page (**see note on column header**)
- If all looks good, copy/paste each of the proposed columns into states daily.

Date	Total PCR Tests (People)	Proposed	Spot check value		Proposed	Spot check value		Proposed	Spot check value		Proposed	Spot check value
